Browder Appointed Operations Manager

Huntsville, AL--Monday, April 3, 2006. TestPro Systems Inc. announced today that Mr. Kevin Browder has been promoted to Operations Manager. Mr. Browder has been associated with TestPro Systems for over 5 years where he was previously responsible for managing the Automation Design Group. Mr. Browder has an extensive background in developing both in-circuit and functional test fixtures.

"Kevin is a cornerstone of our management team. He brought a wealth of experience to our company, and has made a major impact in the way we do business," said Richard Wagner, president of TestPro. "Kevin's knowledge in machining sciences, specifically as it relates to test equipment is second to none."
